Emilio Tavares

IT SUPPORT TECHNICIAN

Porto & Coimbra, Portugal | Email: tavareserp@gmail.com
LinkedIn: www.linkedin.com/in/tavareserp/ | GitHub: github.com/tavareserp | Portfolio: tavareserp.github.io

🛠️ TECHNICAL SKILLS

Windows 10/11 | Linux (Ubuntu, Debian) | macOS | Active Directory | Microsoft 365 | Networking | TeamViewer | AnyDesk | Windows Remote Desktop | Jira Service Management | Hardware Repair | Troubleshooting | CTFL | Manual Testing | Defect Tracking

Operating Systems

- Windows 10 / Windows 11 installation and troubleshooting
- Linux distributions (Ubuntu, Debian)
- macOS installation and configuration

Hardware Support

- Desktop PC assembly and hardware upgrades
- Laptop repair and performance optimization
- SSD and RAM installation
- Internal hardware cleaning and diagnostics
- Peripheral troubleshooting

Mobile Device Repair

- iPhone battery replacement
- iPhone screen replacement
- Smartphone troubleshooting and maintenance

Help Desk Support

- Hardware troubleshooting
- Software troubleshooting
- End-user technical support
- Remote technical assistance
- Incident documentation and resolution

Remote Support Tools

- TeamViewer
- AnyDesk
- Windows Remote Desktop

Ticketing Systems

- Jira Service Management
- Incident tracking and documentation

Microsoft Technologies

- Microsoft 365 / Office 365 troubleshooting
- Outlook email configuration
- Microsoft Teams support
- Windows user account management

Active Directory

- User account creation
- Password resets
- Basic group management
- Permission management

Networking Fundamentals

- LAN troubleshooting
- IP configuration
- DNS troubleshooting

🧠 PROFESSIONAL SUMMARY

IT Support Technician with hands-on experience troubleshooting hardware, operating systems, anc networking issues across Windows, Linux, and macOS environments. Skilled in diagnosing system performance problems, repairing computers and smartphones, and supporting users with technical issues. Experienced with remote support tools, ticketing systems, and Active Directory administrati through practical home lab environments. Certified in software testing (CTFL), bringing structured problem analysis, defect identification, and system validation skills that strengthen technical troubleshooting and support workflows.

✔ KEY ACHIEVEMENTS

- ✔ Built and configured multiple custom desktop computers from individual components
- ✔ Diagnosed and repaired hardware and software issues on desktops, laptops, and smartphones
- ✔ Designed and deployed a Windows Server Active Directory home lab environment
- ✔ Improved system performance by upgrading RAM and SSD storage and optimizing operating systems
- ✔ Troubleshot network connectivity issues in local network environments
- ✔ Applied structured defect analysis and troubleshooting methods from software testing experien

💼 WORKING EXPERIENCE

Technical Support Assistant

Inditex
Duration: 3 Months

Provided technical support for internal systems and workstations in a retail environment, assistir staff with hardware, software, and connectivity issues.

Responsibilities:

- Diagnosed and resolved hardware and software issues on employee workstations and point-sale systems
- Assisted users with operating system and application troubleshooting
- Performed system maintenance and software installations
- Helped configure and maintain network connectivity for internal devices
- Provided user assistance for technical issues affecting daily operations

Technical Support Assistant

Medical Clinic
Duration: 3 Months

Provided IT support to medical staff, ensuring reliable operation of computer systems and netwo connectivity used in daily clinic operations.

Responsibilities:

- Troubleshot hardware and software issues affecting clinic computers
- Assisted staff with system access and application configuration
- Maintained computer systems and performed software updates
- Configured printers and resolved network connectivity issues
- Provided general technical assistance to clinic personnel

Freelance Software Tester

uTest
Duration: 3 Months

Participated in crowdtesting projects evaluating software applications across multiple platforms.

Responsibilities:

- Executed manual testing for web and mobile applications
- Identified and documented software defects using bug tracking systems
- Provided detailed reproduction steps for discovered issues
- Verified bug fixes and validated software behavior after updates
- Collaborated with global testing teams through the uTest platform

Skills demonstrated: Manual software testing, Bug reporting and defect tracking, Analytical problem solving.

- DHCP basics
- Router configuration
- VPN troubleshooting

Command Line & Diagnostics

- Windows Command Prompt
- Basic PowerShell usage
- Linux terminal diagnostics

Common commands used for troubleshooting

- ipconfig
- ping
- tracert
- netstat
- sfc /scannow
- chkdsk

🧪 TECHNICAL ENVIRONMENT

- **Operating Systems:** Windows Server, Windows 10, Windows 11, Linux (Ubuntu)
- **Support Tools:** TeamViewer, AnyDesk, Windows Remote Desktop
- **Directory Services:** Active Directory
- **Networking:** IP configuration, DNS, DHCP troubleshooting
- **Virtualization:** Virtual machines used for IT lab environments
- **Hardware:** Desktop computers, laptops, smartphones

📜 CERTIFICATIONS

- ISTQB Certified Tester Foundation Level (CTFL)
- CompTIA A+ - In Progress

Udemy Certifications

- IT Support Technical Skills Help Desk Course
- Windows 10 Troubleshooting for IT Support Technicians
- Computer Hardware and Networking Fundamentals
- Active Directory & Windows Server Administration Basics
- Microsoft 365 Administration Fundamentals
- Networking Fundamentals for IT Support
- Linux for Beginners
- IT Troubleshooting Skills Training

Currently Learning

- Windows Server administration
- Networking troubleshooting techniques
- PowerShell fundamentals

🌍 LANGUAGES

- English - Fluent
- French - Fluent
- Spanish - Fluent
- Portuguese - Fluent

🌐 PORTFOLIO PROJECTS

- Active Directory Lab Architecture
- Networking Troubleshooting Lab
- Help Desk Troubleshooting Workflow
- System Optimization Projects

Portfolio: tavareserp.github.io

🖥️ TECHNICAL PROJECTS

Active Directory Home Lab

Designed and deployed a Windows Server virtual environment to simulate enterprise IT administration tasks.

Activities included:

- Installing Windows Server in a virtual machine
- Configuring Active Directory Domain Services
- Creating and managing domain users and groups
- Joining Windows client machines to the domain
- Practicing password resets and user troubleshooting
- Applying basic Group Policy configurations

Networking Lab Environment

Built a virtual network environment to practice diagnosing and resolving connectivity issues.

Activities included:

- Configuring virtual machines within a simulated network
- Practicing IP addressing and subnet configuration
- Testing connectivity using ping and tracert
- Troubleshooting DNS resolution issues
- Simulating network configuration errors

PC Performance Optimization

Diagnosed and improved performance issues on desktop and laptop systems by upgrading hardware components and optimizing system configuration.

Computer & Smartphone Repair

Performed hardware repairs and maintenance on laptops, desktops, and smartphones including RAM upgrades, SSD installations, battery replacements, and screen repairs.

🔍 TROUBLESHOOTING METHODOLOGY

1. Identify the issue and gather information from the user
2. Replicate the problem when possible
3. Diagnose the root cause using system tools and logs
4. Apply the appropriate solution
5. Test the system to confirm resolution
6. Document the issue and solution

🧩 SOFTWARE TESTING KNOWLEDGE

Certified in software testing through the ISTQB Certified Tester Foundation Level certification.

Knowledge areas include:

- Test case design techniques
- Defect identification and reporting
- Structured testing processes
- Verification and validation of system behavior

These practices support accurate problem diagnosis and improve troubleshooting efficiency in IT support environments.

🎓 EDUCATION

Computer Engineering Studies
Polytechnic Institute of Coimbra

High School Diploma
Educative Center Miraflores

💡 PROFESSIONAL STRENGTHS

- Strong analytical troubleshooting skills
- Clear communication with non-technical users
- Ability to diagnose technical issues quickly
- Attention to detail in hardware repair and system maintenance
- Commitment to continuous learning and professional development
